## PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1c.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

## SUMMARY

25X1D A possible military installation is located in the northern part of Borislav. The installation contains four separately secured areas. KEYHOLE photographic coverage of the area is very poor; however, TALENT photography in [REDACTED] gives good-quality coverage. Interpretation in this report is based on [REDACTED] coverage in conjunction with KEYHOLE coverage [REDACTED]

25X1D

25X1D

25X1D

[REDACTED] Area D1 contained one occupied 8-gun AAA site and one unoccupied 8-gun AAA site; a training area with personnel trenches and emplacements; and eight buildings, including

an ammunition storage building. The most recent photography shows only a barracks, an administration building, and 4 storage buildings remaining. Present military use of this area is questionable.

Area J1 has not changed since [REDACTED] although the town has expanded around the area. The only change noted in Area D2 since [REDACTED] is the addition of two possible barracks and a storage building. The presence of the small-arms range (Area L) cannot be confirmed. No training areas or facilities are observed within a 15-kilometer radius.

## DESCRIPTION OF INSTALLATION

### Railroad Service

No rail lines enter the installation; however, a classification yard is located 500 meters east.

### Road Service

Good all-weather roads serve the area.

### Administrative and Troop Housing Areas

25X1D Area D1 contains one single-story administration building, one single-story barracks, and four single-story storage buildings. In [REDACTED] this area contained two 8-gun AAA sites, one occupied, and eight buildings, including an ammunition storage building. Personnel trenches and emplacements were located immediately north of the area.

Area D2 contains six possible barracks, one a multistory U-shaped building; three administration buildings; three storage buildings; 13 support buildings; a 210- by 175-foot probable motor vehicle maintenance building with a shed attached to the end; and a 260- by 95-foot maintenance building. Approximately 185 feet of the maintenance building roof is the monitor type.

The building has possible motor vehicle grease racks in front.

### Equipment Storage/Maintenance Areas

Area J1 contains one multistory C-shaped administration building/barracks, three support buildings, two 185- by 40-foot motor vehicle storage buildings, one 95- by 35-foot possible motor vehicle maintenance building, and two small sheds. In [REDACTED] the area included a vehicle park with approximately 10 vehicles.

Area J2 contains one support building and one 175- by 35-foot probable motor vehicle storage building. No vehicles were noted in this area. The area is separately secured from the rest of the installation and has its own entrance.

### Athletic Fields

Area K1 is an athletic field and Area K2 is a swimming pool.

### Small-Arms Firing Ranges

Area L contained a 610- by 55-foot small-arms firing range on TALENT photography.
